Subject: Release of the EPA's Proposed Plan and Focused Feasibility Study

Dear Judith:

I am a member of the Passaic River Community Advisory Group (CAG), resident of Belleville, and the Passaic River Issues Coordinator for the New Jersey Chapter of the Sierra Club. You and I have met on several occasions concerning the Passaic River and other Superfund Sites along with the late Senator Frank Lautenberg and Congressman Bill Pascrell. I also had a close relationship with the late Ella Fillapone, PhD of the Passaic River Coalition who devoted her life to improving the Passaic River. Finally, I am a member of the Passaic River Alliance which represents NJ Watershed Area 4.

From my memberships I am reassured that there are so many advocates of the Passaic River who want the River to be restored to it's pre-industrial state. So many environmentalists, including Frank and Ella, are counting on the EPA to move forward and show leadership on the Passaic River Clean Up.

I know from hearing you speak that you share Frank, Bill, and Ella's passion for the environment and the Passaic River. Therefore, I request that the EPA's Proposed Plan and Focused Feasibility Study be released immediately for the consideration of the CAG so that we can continue our meaningful work.

Thank you.

David Yennior
